The UN Migration Agency

EXPRESSION OF INTEREST

TO PROVIDE SUPPORT IN SETTING UP INCOME GENERATING ACTIVITIES FOR RETURNED MIGRANTS
IN LAGOS, DELTA AND EDO STATES

TERMS OF REFERENCE

BACKGROUND

Assisted voluntary return and reintegration (AVRR) is a key strategy in ensuring the safe, humane and orderly movement of migrants back to their areas of origin. It is an indispensable component of a migration management approach which is intended to be mutually beneficial to migrants, governments and other sectors of society affected by migration. IOM implements the AVRR which has well-tailored reintegration measures supporting the socio-economic integration of returnees in their country of origin.

In Nigeria, IOM has been providing reception and reintegration assistance to returnees since 2002. As part of the regional Joint Initiative for Migrant Protection and Reintegration financed by the European Union Trust Fund, IOM, in close collaboration with the Government of Nigeria, is implementing actions to ensure the sustainable reintegration of returning Nigerian migrants.

In addition to the individual and community reintegration support, the project provides collective reintegration. Collective reintegration assistance will group returning migrants in work or training partnerships residing and willing to do business in similar location, to develop local support systems. It will also create more sustainable work opportunities by combining resources and could engage unemployed youths, who might otherwise consider making dangerous journeys to Europe in search for greener pasture. Collective reintegration projects help in building returnee networks and greatly contributes to the social reintegration of returnees who have little to no social network upon their return to their country of origin. Collective reintegration projects not only contribute to the economic betterment of returnees and the surrounding community, but also provide a social support structure for them. Returnee networks are important because of the shared experiences of returnees, but it is also important to consider methods of integrating returnees into the wider society to prevent them from becoming too insular. This proposed project would facilitate events and provide services, such as sociocultural activities, legal and psychological support, further increase employment opportunities whilst curbing irregular migration in the society at large.

OBJECTIVE

The main objective of the assignment is to provide reintegration support to returning migrants, which includes assistance to groups of returnees in setting up small businesses or in partnership with their community members in Lagos, Delta and Edo states under the EU-IOM Joint Initiative for Migrant Protection and Reintegration in Nigeria.

METHODOLOGY AND SCOPE OF WORK

The service provider undertakes the following project activities in strict accordance with below responsibilities to reintegrate (set up collective income generating activities) for at least 600 returnees

- Contact migrants who have successfully concluded the business training under the EUTF-IOM JI and have been grouped based on choice of reintegration activity and location.
- Identify their training needs if any and support returnees in preparing reintegration plans for the implementation of their reintegration activities.
- Assist beneficiaries in obtaining necessary documentation (e.g. registration and license, valid Identity card, Affidavit etc.) needed to facilitate their reintegration.
- Support in identifying vendors and obtaining necessary documentation (invoices/quotations) for the purchase of goods and services in a competitive process for the implementation of the project.
- Support returnees in the implementation of selected income generating activity per group.
- Conduct visits (assessment) in the localities of origin selected and identify types of income generating activities for a better economic rehabilitation
- Initial monitoring carried out one month after implementation to obtain feedback from beneficiaries about the progress of their businesses.
- Subsequently, 2nd and 3rd monitoring/evaluation are conducted, and success stories documented.
- monitoring of project progress and timely reporting to IOM

DELIVERABLES

1. Detailed list of returnees verified and selected into groups of 3-4 persons per group based on the skills needed or income generating activity
2. Dully filled reintegration plans signed by returnees and reviewed and endorsed by the local reintegration committees
3. Detailed list of returnees/groups who successfully implemented their respective reintegration plans to set up income generating activities
4. Submission of appropriate financial and other supporting documents, payment invoices and receipts
5. Detailed progress report clearing explaining any deviation from initial plan and reasons, challenges encountered, opportunities available for expansion of the project and other observations.

TIMING AND REPORTING

Output	Duration (days)
Detailed list of persons verified and selected into group of 3-4 persons based on the skills needed or income generating activity	Two days after each business training
Detailed list of successful beneficiaries' income generating activities established	One month after cases are assigned
Detailed progress report/monitoring	Bi-monthly
