Advice regarding medical examination

- a) For your medical examination, you will be asked to take off all your clothes except your underwear.
- b) You may require a chaperon to be present during your physical examination, especially if you are to be examined by a physician of the opposite sex.
- c) Do not conceal medical conditions. Deliberate attempts to hide them will be recorded in your medical report and immigration visa office notified. Additional examination or tests may be required for individuals with significant medical conditions in order to complete and submit the medical report.
- d) Do not conceal pregnancy. Pregnancy will not affect your immigration prospects. X-ray radiation may harm your baby.
- e) Women are advised to avoid medical examination during menstruation as it may affect results of the urine test.
- f) Postpone or re-schedule your appointment if you or your child is ill with fever.
- g) Your medical examination will take place over a one- day period. Please allow approximately 3 hours for your examination to be completed.
