NEW ARRIVALS / RECEPTION CENTRE

Reception centres were set-up by IOM to improve the protective environment and assistance to newly arrived populations. Reception services to newly arrived displaced populations have been set up in Bama, Banki, Dikwa, Gwoza and Pulka. IOM is working with a wide range of partners who provide various assistance and services to the IDPS which range from Shelter assistance, Food assistance, NFIs, Protection and Medical assistance among others.

- 80% of new arrivals were assisted with food.
- 80% of new arrivals were assisted with NFIs.
- All new arrivals had access to health care services.
- 90% of new arrivals were provided with shelter solution. The

following Camps and Reception centers below received a total number of 3,742 Households and 8,576 Individuals within the reporting period.

BAMA RECEPTION CENTRE, BANKI RECEPTION CENTRE, CAMP C (WEGE EXTENSION), CAMP D (DAMARA ARRIVAL CENTRE), CUSTOM HOUSE 2, GGSS MONGUNO, GSS CAMP GWOZA, GSSSS CAMP BAMA, GWOZA RECEPTION CENTRE AND PULKA RECEPTION CENTRE.

EXECUTIVE SUMMARY

As part of the response to the humanitarian needs during the on-going conflict in northeast Nigeria, the International Organization for Migration (IOM) is supporting the National Emergency Management Agency (NEMA) and State Emergency Management Agency (SEMA) in the management of IDP camps.

Through stationed and mobile CCCM teams, IOM assessed 68 sites and 5 reception centre in Borno and 21 in Adamawa.

IOM has deployed 78 Site Management Assistants who are supporting SEMA/NEMA camp management staff in the management of IDP sites. IOM is also managing some IDP sites on behalf of SEMA/NEMA where government camp managers are not present. IOM contributes to the overall northeast Nigeria humanitarian response through speedy reporting of gaps and needs in IDP sites, organization of IDP community participatory structures and contributing to deep field coordination mechanisms for some locations.

The Service Monitoring Tool (SMT), produced by the IOM CCCM unit, serves as a monthly tool to check the quantity and quality of humanitarian services provided to the IDP populations and flagging major gaps to enable speedy response.

SHELTER

- 80% of the sites have shelter actors present.
- 50% of the IDPs HHs are living in emergency shelter, 22% in makeshift, 9% in public facilities, 10% in collective/communal shelter, 3% in transitional shelter and 1% needs shelter solution.

Fig 2.1 Showing Sites and Percentage of HHs without Shelter Support

HEALTH

- 52% of the sites have health actors present for the reporting month.
- 60% of IDPs have access to medicine for the reporting month.
- With 42%, Malaria was reported to be the most prevalent health challenge across sites.

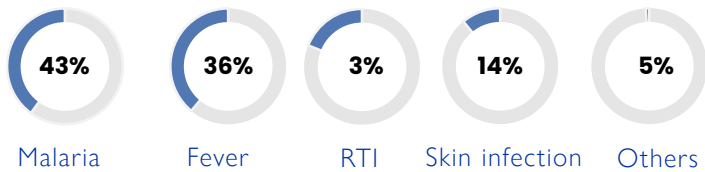

Fig 2.3 Showing Most Prevalent Health Problem across Sites

PROTECTION

- 94% of the sites have protection actors present for the reporting month.
- Reporting of GBV cases is active across 89% of the sites.

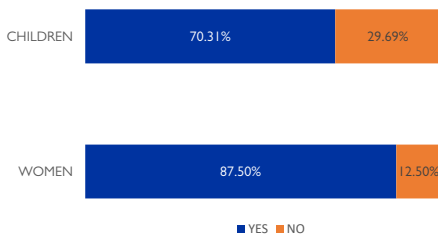

Fig 2.5 Showing Protection activities with Women and Children

NFI

- 78% of the sites have NFI actors present.
- 58,844 HHs which constitute 60% of the population of IDPs across the sites need NFI support.
