Migrants as Messengers Volunteers Reach 59,000 People

Since 2019, Migrants as Messengers (MaM) volunteers in Nigeria have reached over 59,000 people under the second phase of MaM through various offline activities like market sensitization, school advocacy, soccer tournaments, music concerts, drama and role plays, radio visits. They have also produced over 105 digital content including videos aired on social media platforms to help their peers make informed decisions on their migration choices.

Every World Humanitarian Day, we thank our staff and volunteers who are on the ground delivering life-saving and urgent humanitarian aid to migrants, host communities, internally displaced persons and those in need in North-East Nigeria.  

One of the challenges faced by people displaced in north-east Nigeria is access to safe drinking water. IOM is helping to bridge the gap through installations of over 85 solar powered boreholes and 44 hand pumps in camps across Borno and Adamawa State.
