

EXECUTIVE SUMMARY

The Reception Centre Monitoring Tool (RCMT), produced by the IOM CCCM unit, serves as a monthly tool to check the quantity and quality of humanitarian services provided to the IDP populations and flagging major gaps to enable speedy response.

IOM contributes to the overall northeast Nigeria humanitarian response through speedy reporting of gaps and needs in IDP sites, organization of IDP community participatory structures and contributing to deep field coordination mechanisms for some locations.

As part of the response to the humanitarian needs during the on-going conflict in northeast Nigeria, the International Organization for Migration (IOM) is supporting the displaced population in managing reception centre in Borno State. Reception centres were set-up by IOM to improve the protective environment and assistance to newly arrived populations. Reception services to newly arrived displaced populations have been set up in Bama, Banki, Dikwa, Gwoza and Pulka. IOM worked with a wide range of partners who provide various assistance and services to the IDPs which range from Shelter assistance, Food assistance, NFIs, Protection and Medical assistance among others.
